## MC SERIES EXTERNAL REWINDER

The MC label rewinders are the world's most popular low-price Label rewinders

- The series uses a constant adjustable torque technology to achieve impressive, reliable performance at an unprecedented low price.
- A special motor, designed specifically for the series, offers bi-directional operation and trouble-free performance. It's possible to rewind label outside or inside.
- A switch, on the power supply, conveniently controls the amount of rewind force. No awkward, troublesome belts or clutches are used and no speed adjustments are required.
- The MC automatically adjusts to any printer speed up to 50cm/sec and even allows label back-feeding automatically, if your printer requires it.

The MC rewinders have rugged steel construction and feature a 5-year warranty.
